---

SUMMARY

Motivated Engineering Student with a passion for technology, innovation, and problem-solving. Eager to contribute to collaborative projects and thrive in fast-paced learning environments. Skilled in communication, leadership, and project coordination, with a growing interest in AI, and user-focused solutions. Actively building a versatile, future-ready skill set through hands-on experience and continuous learning.

PROJECTS

Programming Language Recommender:
Created a lightweight, fully client-side web app using HTML,CSS,and JavaScript that recommends the best programming language based on user preferences via an interactive questionnaire, featuring responsive design and intelligent,logic-based recommendations.

Vedtype — Web-Based Typing Practice Application:
Developed Vedtype, a modern web-based typing practice app using TypeScript, Vite, Tailwind CSS, and Bun, focused on enhancing typing speed and accuracy through real-time feedback, WPM/error tracking, and responsive design

TECHNICAL SKILLS

- Python
- Research
- Prompt Specialist
- Front End - Developer
- Visual Content Creator
- AI tools

SOFT SKILLS

- Communication
- Teamwork
- Time-management

EVENTS ATTENDED

Dev Fest Indore -GDG INDORE   DEC-2024

- Theme - Responsible AI: The event centered on developing ethical AI technologies to boost productivity.
- Diverse Tracks: Sessions covered AI/ML, Web, Cloud, Mobile, and Startups, catering to all skill levels.
- Networking Opportunities: Attendees connected with industry experts and peers, fostering collaboration.

MumbAI -Asia's Largest AI Event By TEAM   FEB-MAR 2025

- AI in Industries: Tata, Jio, Salesforce showed real-world AI in telecom, healthcare, CRM, and media.
- AI in Governance: Focus on AI in education, law enforcement, public services, and cultural heritage.
